

1.2.3. Average percentage of students enrolled in Add-on/Certificate programs as against the total number of students during the last five years

1.2.2.1. Number of students enrolled in subject related Certificate or Add-on programs year wise during last five years

Response: The present Certificate program was intended towards first year students only. So total no of students correspond to the total strength of first year student for the particular year

year	2019-2020	2018-2019	2017-2018	2016-2017	2015-2016
1st year enrolled no of student	00	57	54	53	39
1st year total no of student	225	321	303	314	278

Formula:

$$\text{Percentage per year} = \frac{\text{Total number of students enrolled in certificate / Add -on programs}}{\text{Total number of students across all the programs}} \times 100$$

$$\text{Percentage per year (2018-2019)} = \frac{57}{321} \times 100 = 17.75\%$$

$$\text{Percentage per year (2017-2018)} = \frac{54}{303} \times 100 = 17.82\%$$

$$\text{Percentage per year (2016-2017)} = \frac{53}{314} \times 100 = 16.87\%$$

$$\text{Percentage per year (2015-2016)} = \frac{39}{278} \times 100 = 14.02\%$$

$$\text{Percentage per year (2019-2020)} = 00\%$$

$$\text{Average percentage} = \frac{\sum \text{Percentage per year}}{5}$$

$$\text{Average percentage} = \frac{17.75+17.82+16.87+14.02+00}{5} = 13.29\%$$
