Revati Mundhada
Architect
CA/2020/126842

I am a professional architect who has been involved in the industry for more than 4 years. My specialties are in the area of interior and exterior design, planning. I have successfully completed residential, commercial both interiors and civil projects. I have also experienced lectureship for few years. I have a good hand on software but my passion for design is much more than just sitting at a computer. I do enjoy working in teams, collaborative learning.

EXPERIENCE

2018 - 2020
Freelance work

- While continuing my graduate program at the Amravati university, I also did freelance designing. My thesis topic was 'Air purification by virtue of Architecture' in which I made a prototype of society to reduce pollutant level at Dwarka, Delhi through architectural designing.

2020 - Now
Principal Architect at Archinaari designs

- After gaining experience as a freelancer & during internship I tried my fortune in self practice. I have gained much experience, particularly in interior and exterior design. I have completed residential as well as commercial projects. With this I also did my master's from Nagpur University where my thesis topic was 'A model to experience historic structure' in which I have developed models to learn & teach history through sensory architecture.

2022 - Now
Faculty at P.R. Patil College of Architecture
